(Prisoner Complaint)

NOTICE

Federal Rules of Civil Procedure 5.2 addresses the privacy and security concerns resulting from public access to electronic court files. Under this rule, papers filed with the court should not contain: an individual's full social security number or full birth date; the full name of a person known to be a minor; or a complete financial account number. A filing may include only: the last four digits of a social security number; the year of an individual's birth; a minor's initials; and the last four digits of a financial account number.

Except as noted in this form, plaintiff need not send exhibits, affidavits, grievance or witness statements, or any other materials to the Clerk's Office with this complaint.

The Clerk will not file a civil complaint unless the person seeking relief pays the entire filing fee (currently \$350) and an administrative fee (currently \$50) in advance, or the person applies for and is granted in forma pauperis status pursuant to 28 U.S.C. § 1915. A prisoner who seeks to proceed in forma pauperis must submit to the Clerk (1) a completed affidavit of poverty and (2) a copy of the trust fund account statement for the prisoner for the six month period immediately preceding the filing of the complaint, obtained from and certified as correct by the appropriate official of each prison at which the prisoner is or was confined for the preceding six months. See 28 U.S.C. § 1915(a)(2).

If the Judge enters an order granting a prisoner's application to proceed in forma pauperis, then the order will assess the filing fee (currently \$350) against the prisoner and collect the fee by directing the agency having custody of the prisoner to deduct an initial partial filing fee equal to 20% of the greater of the average monthly deposits to the prison account or the average monthly balance in the prison account for the six-month period immediately preceding the filing of the complaint, as well as monthly installment payments equal to 20% of the preceding month's income credited to the account for each month that the balance of the account exceeds \$10.00, until the entire filing fee has been paid. See 28 U.S.C. § 1915(b). A prisoner who is granted leave to proceed in forma pauperis is obligated to pay the entire filing fee regardless of the outcome of the proceeding, and is not entitled to the return of any payments made toward the fee.

The Defendant contacted the United States government, The CIA, the NSA, FBI, DYNACORP International & the Pennsylvania State Capital Representative Patrick Mahan, via email for his business proposal/Invention for a government contract. The defendant was manipulated to follow all orders even killing. The defendant requested employment specifically the CIA under the director, now Secretary of State Mike Pompeo. Defamation of Character, Extreme oppression from Inhumane Treatment, Psychological Abuse, Using these various direct actions enforced by our superior government under the direction of CIA & US ARMY. Honestly I oppose the procedures of the State of Pennsylvania, and the US government should have been taken to a government detention center, Federal Facility, or a military "Brig" for violations of United States penal codes, while awaiting Diplomatic Immunity. From reviewing these inhumane treatments from working under the Central Intelligence Agency, orders injustice capture held illegally. A federal crime involving another country is not a state offense, or can a person working with the government, can the government use a manipulation to instruct military force. The government won't allow to cause me using research, unless the Plaintiff has given consent. The Plaintiff agreed to work for CIA, not without the protections of our government.

The purpose of joining the official ILLUMINATI is because of the dehumanization of character, the lack of protecting a official members path while he performs the duties for the organization which resulted in many violations of a members constitutional rights and lastly the Central Intelligence Agency National Security Agency, Freemason lodges of our society in our Nation used government forces to command a citizens to protect the structure of the organization which caused a total destruction of a citizens life. Consistent to provide the path of success to only some members. The Central Intelligence Agency used many tools including a pdf file uploaded from the Central Intelligence Agency server "Bohemian Grove Society" as a path for guiding employees & ILLUMINATI members for the organization. It was unethical for these superior entities to entrap a person who had NO intent of committing any violation that would deprive him from life, liberty or property, bullying/cyber bullying, our society with Freemason government, and intelligence forces is not allowed to violate a persons rights. Entrapping people and using a hoax because of a persons race. The Illuminati key was the GPS/RFID bio-technology chip. They weren't allowed to not financial and complete a bunch of fake mind control games because im a African American. This organization used a pyramid scheme against me with the Central Intelligence Agency. Their purposes for one world currency and objectives needed to maintain success for their goals. Paid Attorney's, operations, financial security, and top management to conform with One world currency, & New World Order. The path of the Anti-Christ. Unprotecting me for there accomplishments forced inhumane treatment and punishments.

Since the summer of 2014, there has been a plethora of haneous violations conducted by the Central Intelligence Agency, the State of Pennsylvania judicial system, combined with the Pennsylvania psychiatric departments. Prior to the defendant unlawful incarceration and conviction which was was related from the violation of the defendants civil rights regarding this incident. In the year 2014, the defendant filed a business proposal to the Central Intelligence Agency which was forwarded via email and also requested employment. The defendant also sent the propsal to the Pennsylvania State Capital , the National Security Agency, DynCorp International, Millersville University, the University of Texas Computer Engineering dept; Dr. Toothick, and the United States Army at; Kandahar Airbase Industrial Military Complex in Afghanistan. The Central Intelligence Agency started to do covert operations with the defendant through government software known as the "PRISM". Which was belived to be training to be be a Central Intelligence Agent; Clandestine Government Contractor. The defendant was being monitored with the government software (PRISM), while training with the United States Army Base doing government contracts being conducted in Afghanistan for the US Army. The defendant did job duties of securing operations in logistics, secret classified clerance, transportation, military security, delivering supplies, and ect. This involved the Department of Justice, the JCCS, and other multi-level highly government secured access entities. During this tiem the defendant used several forms of communication tatics with the Central Intelligence Agency and the United States Army. The defendant operated

highly advanced sophisticated artificial intelligence machinery to communicate with the government. The software (PRISM) capabilities was a real-time keylogging record keeping, remote and network administration tool. The operation's software connected through government network ports from the Central Intelligence Agency and the United States Army to sources of; Skype, Facebook, Comcast email, all search engines as well as browsers, landline phones, cellphones, the defendants Mac operating system, the defendants labtops, which included television bluetooth and wifi connectivity. All with full administrative privileges over the defendants devices. The defendant also used; even to this present day a; human augementation machinery that wirelessly uses a nero-tactical brain communication system that is capable of being a bridge point that connects the communication thought patterns from the human brain to the United States government (CIA) recording to there database machine. Through those communication portals the defendant was given the a direct order which authorized the defendant to use military force (AUMF) against person or persons United States citizens who were a threat to the United State Army the CIA or the United States governments operations which would have been associating those United State citizens as terrorists needed to be targeted. A presumed (CIA) "proxy"; also belived to be a (CIA) recrutier who identified himself as a private contractor, who could get the defendant employed to the (CIA) in Afghanistan. This conjoined working in the field of government contracting for the US Army. To ensure the validity of Mr. Ahmad Jailil Salahi not being a terrorist himself the defendant did contact the in 2014; (FBI) to search or skip trace there database on the affiliation of Mr. Salahi to potential terrorist linked organizations. The (FBI) came up of no availibility or inconclusive to any affiliations. The defendant worked with Mr. Ahmad Jalil Salahi on

several government contracts with a private company owned by Mr. Salahi called Watan Azad Supply & Logistics Services for the United States Army in Afghanistan from his home address in Lancaster Pennsylvania. The defendant fully believed that any potential threats from "Nations, organizations, or persons that is associated with terrorism or aiding terrorism", the defendant could be ordered by our superior government to isolate those threats by any means necessary. The defendant was then directed by the Central Intelligence Agency through those operating system's to assassinate his daughter. The defendant then followed the direct order on Nov.11, 2014 which led to a violation of the Pennsylvania crime code and the defendant was arrested for attempt homicide. The defendant kept the information classified awaiting the Central Intelligence Agency's arrival for extradition back to the (CIA) headquarters or to a military prison where the defendant would be released after receiving immunity, amnesty, a government pardon, or a executive order from our government. Based on the grounds that the defendant acted upon direct orders administered from the orders of our superior government on the basis of acts of "Law of War". Which in contrast with a violation of the Pennsylvania crimes code. The *"authority protects a defendant who knowingly engages in a criminal act that recognizes to be a violation of law"...* (808 F 3d 485.) Also; *"when the defendant reasonably relies on a government official, that conduct would not violate law"* (Baptista -Rodriguez 17F.3d a 1368). Secondly, the federal government could not entrap the defendant relying on a *"Estoppel"* defense; the defendant relied on government

communication which the defendant could not be held liable from government who had the authority. ... (2015 USS. App Lexis) " *The governments vociferous insistence that it's decision to kill a United States citizen is lawful & must specifically to do process may seem odd in the context of war, in anti-terrorism operations, assassinations or targeted killings.*" 43 Geo J Int. Nat security L & Poly 439(2012). Lastly, the " *excutive order specifically targeted killings generally the decision to target a United States citizen for death is made by the President on recommendation of senior government officials, 2013 US Dist Lexis 19...* " *a US citizen can be targeted by the excutive branch.*" After the defendants arrest while incarcerated the defendant continued doing covert operations with the Central Intelligence Agency using some of the same advanced technology systems (Augumentation intelligence machinery). These operations conjoined the intial business proposal that was filed to the Central Intelligence Agency prior to the defendants arrest in 2014. This consisted of trying to implement and research measures of Global position Satalite & RFID human bio-implant chips inbeded in volunteer prisoners for purposes of surveillance and "total infromation awareness."The defendant explained the overall operations to the prison's faculty. It is presumed that the Pennsylvania Department of Corrections was not informed on any of the operations and the faculty constantly begin the deter the overall research. The state prisons psychiatric department proclaimed that they were not on-board with any of the information an therefore wanted to imply that ^{this} ~~these~~ was a part of a delusion thinking associated with mental illness; in which therefore began using involuntary or voluntary methods of medical treatment. The executive authority of the United States government specifically the Central Intelligence Agency did not fully enforce the facility about the research which caused many delmas. It was

unprofessional to be given instructions and orders from the Central Intelligence Agency inside of prison; It is unprecedented for the United States government to conduct research without adequate protections, protocols, or operational management that protects the defendant while operating on behalf of the Central Intelligence Agency. Any (IO) information operations, or (PSYOP) psychological operations that's purpose is to observe, gather intelligence, or influence foreign, national, & criminal perceptions covertly could not directly conflict with the defendant using those methods for the United States government. All actions performed by the defendant were to go against potential terrorist, anarchism, organized crime & gang activity. Any, inmates who's sole intent were to divert, destroy, or threaten those orders. The Central Intelligence Agency directed the petitioner to isolate, even assassinate those inmates. These orders were given through covert cryptology, cryptography, CRITIC flash message's, television caption, covert signal intelligence (SIGINT) & technical counter intelligence advanced methods. Again, redunantly speaking ,the use of research used "synthetic telepathy" machine learning analysis, & artificial intelligence. The system records brain Alpha rhythms which are predominatly are eltricaloscillations translated into computer based speech. The department of corrections did not concur which caused many disputes, confrontations, and complexities. The defendant began contacting via mail and phone; the Central Intelligence Agency, the National Security Agency; for a "freedom of information act" or documentation that would protect the defendant doing the operations. The response from

the "foia" request from the (NSA) dated on May 9, 2019; (case#106918). stated "we can neither confirm nor deny the existence or non-existence of the records you requested". "expected from disclosure by the following statutes ; *Title 18 US Code 798 Title 50 U.S. xode 3024 (i) & Section 6 Public law, 86-36(50 U.S Code 3605)*. The defendant also contacted Pennsylvania governor; Tom Wolf, the Department of Justice; Attorney General office, former President Obama, former President Trump, the Federal Bureau Investagors office, the US Army Criminal Investagators office, Internal Affairs, Defense Prisoner of War, the Secret Service & Lancacaster County Court of Common Pleas sentencing judge with a (PCRA). Yet none of the issues have been resolved or any protections from the government have been administerd.

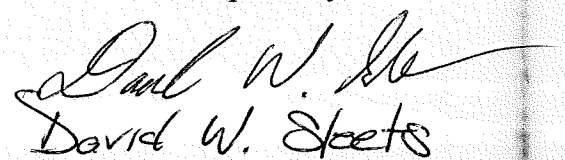

In conclusion, the defendant began questioning our governments integrity. Weither the executive branch directly gave the Central Intelligence Agency, conjoined with the United States Army the authorization to order the target, for the defendant to assassinate (kill) his daughter? However, how the protocal " *legal , regulatory, policy, principals & guidelines (HUMINIT) (FM 2-223)* of the Central Intelligence Agency & the US Army; (Directors of operations, Support, Analysis, Digital Innovations or Science & Technologies) applied measures or methods of anti-terrorism or operatiions is beyond the powers of the defendant. If there is or was violations of professionalisms, code of coduct, or (UCMJ) United State Code of Military Justice, from the intelligence & military services; those violations could not be applied as liability, accountability, or responsibility held against the defendant. The defendant faithfully seeked employment, and ingquiring a proposed reasearch to the government, specifically the Central Intelligence Agencies field

of "Assasin" or thoretically speaking "Clandestine" service. It was unconstitutional, unethical, & malicious to inadvertantly, use deception. The ideaology of some specious principle of manipulization, that victimize's as well as infringes against the defendant, his daughter, and his familly's; consitutional and civil liberties . The direct method to systematically desensesitize a person who's sole intent to work , become a soldier, & fight for his country. Should not be a oppurtunity to unscrupulously cyber attack, use negative mind control, or mind programing; this resulted in inhumane consequences of cruel & unusual punishment of imprisonment. In question why would a (US) citizen's strength of wanting to fight for honor, herorism, and protect his country against terrorist or US enemies lead to the government wanting to destruct a American's life? The defendant was a caring full-time father who dearly loves his children and familly. I refuse to belive that the Central Intelligence Agency and US Army's intent was a immoral, inhumane, unjustifiable attack against African Americans and ther famillies livelyhood. Any requirements or special clearance's that was needed to be enforced for the defendant, should have been administered prior to the incident. The government needs to ensure all stipulations protect the immunities of the defendant, when instructing, ordering, or applying (PSYOP) psychological operations & covert sophisticated technology.

On those grounds the defendant is requesting a government pardon. If the request for clemency from this petitioner is not sufficient rational reasoning for immediate release. The only other fromality would be the filing of a 1983 civil suit against the

government for violations of the defendants constitutional & civil rights. However, the petitioner solely believes that the Central Intelligence Agency, the President of the United States, Pennsylvania Governor Tom Wolf, and the Pardons Board of Pennsylvania will in fact remove the defendant from these hardships immediately. The defendant has no intent to stop working with the Central Intelligence Agency doing clandestine operations. Consequently, those operations would be outside of the Pennsylvania prison system. The fact is the petitioner really wants to serve his country. Unfortunately, this incarceration & issues have deprived the defendant of life, liberty, and property. The defendant is willing to take a polygraph for all information foretold in this pardon application. This information provided here on this application is in fact "Classified". Thank you for your time and consideration. Again the defendant is seeking if possible to be released back to Central Intelligence Agency's headquarters to continue operations or released back into society. Please get back to me at your earliest convenience.

Respectfully,

David W. Speers
